## DEEP FAT FRYER CLEANER

Use DEEP FAT FRYER CLEANER as your first step to better tasting fried foods. Regular cleaning of your deep fryer will help keep your oil fresh longer and will stop burned-on carbon and grease from contaminating new oil. It is specially formulated with a blend of wetting agents, water conditioners, and alkaline chemicals to remove heavy stubborn grease.

### DIRECTIONS FOR USE

#### Directions:

1. Drain grease from fryer and remove any loose debris. Rinse out any excess grease with warm water.
2. Fill fryer with warm water, then add one 8 oz. scoop to unit. For deep fryers that are not heavily soiled, as little as 1/2 scoop is effective.
3. Bring the solution to a slow rolling boil for 20 minutes.
4. Whisk away loosened carbon and deposits.
5. Drain unit and rinse with clear water. Towel dry.
6. For best results, flush fryer with a mild acid (vinegar) solution to neutralize. (Recommended to prevent breakdown of new oils.)

\*Keep from Freezing

\*Please consult your Sales Representative or call (888) 260-0201 for additional use directions.
